

Learning@Home

We are aware that during the current period some students are having to stay at home isolating or for other reasons. If students are well enough, parents may wish to provide their children with the opportunity to complete learning activities.

The link below will take you to the department's Learning@Home materials which are available to support students to stay engaged with learning whilst at home. These resources are designed on a distance education model which aims to provide sufficient support for both parent and child to be successful in accessing and understanding the requirements

<https://education.qld.gov.au/curriculum/learning-at-home>

In order to ensure that your child undertakes work that is similar to the work they would be doing if they were at school, we have selected the units noted below because they align to the work currently being covered by class teachers.

Please read the support materials provided on the website to assist you to access and implement the materials as easily as possible.

Learning @Home packages			
Year Level	English	Maths	Science
Prep	Package 1	Package 1	Package 4 and 5
Year 1	Package 5 and 1	Package 1	Package 7
Year 2	Package 4 and 11	Package 1	Package 1 and 2
Year 3	Package 6 and 3	Package 1	Package 4 and 5
Year 4	Package 4	Package 1 and 2	Package 1 and 2
Year 5	Package 7 and 8	Package 1 and 2	Package 11
Year 6	Package 3 and 4	Package 1 and 2	Package 14

Unzipping files

The units of work **must be unzipped prior to use**. If they are not unzipped, links will not be accessible.

The instructions on how to unzip the learning packages are available:

- [Unzipping a resource \(PDF, 598KB\)](#)
- Video—[unzipping a package](#) (duration 1.22 minutes)
- Video—[how to use a learning package](#) (duration 3.10 minutes).

Note: Mac OS automatically unzips the package upon download.

Teachers will be happy to view and discuss any work completed at home with students upon their return to school.
